# SPORTS COLLECTIONS

## Signature Collection

In the Signature Collection, we have let our designers play! From image placement, to how logos are presented, to color offering, each of these styles are unique from the others in the collection.

These collections also contain the new Memory Mate with 10x30 Ratio Team Image (MM130). These work great with our 10x30 Attitude and Virtual Group Artwork.

## Modern Collection

The Modern Collection is our new standard for your sports product needs. The image placement, text placement, and logo placement remain consistent across all products in this collection.

**All styles in the Modern Collection include:** *Appreciation Print(APPLq), Sports Button(CPB), Calender(CA), Green Screen Backgrounds(Download On CandidNet), Keychains(KC), Luggage Tag(ID), Magazine Cover(MC), Sports Magnet(SMAG), Memory Mate(MML), Memory Mate with 10x30 Team Image(MM130), Sculpture Magnet(PSWal), Sports Borders(SPBP5, SPBP8, SPBP4, SPBP6), Super Ticket(SUPER), Trader Cards(TC8, TC12), Level 2 Artwork, Attitude Artwork, & Virtual Group Artwork*

## Classic Collection

The Classic Collection contains all of the “oldie but goodie” styles you have used in your offerings for years. *Please note that not all styles contain every product.*

A **Collection** is a group of products that contain many different styles of artwork. Knowing the collection of the artwork style you choose will give you a good idea of what your products will look like. For example, all of the products within the Modern Collection are identical, only the artwork(style) will change.

A **Style** refers to a group of artwork that matches for several products. This allows you to offer packages with products that complement each other and lend themselves to the sport you are shooting. When setting up your product offering just choose the style that you would like to use for each product.

For most sports products you may also add all of the styles of artwork at once when you set up the offer. This makes it easy on you because you can decide which artwork to use when you set the event up while selecting which offer you would like to use. This means that you don't have to have different offers for each sport!

Below are examples of sports products so you can become familiar with what you would like to offer you customers. On the following pages you can see an example of what each artwork style looks like.

## About the Concrete Style

The Concrete Style is available for many different types of sports and events. Below are examples of how the background artwork will change based on which sport you choose when setting these products up.

## About the Concrete Style

The Concrete Style is Also available in 37 different colors. This gives you almost endless options when offering this style. Below is an example of how each color will look when they print out.

# PREMIER LINE

Our **NEWEST** product line includes dynamic artwork for 15 different layouts/products! These products are produced from an image that is cut-out (masked) and placed into eye-catching designs to create pro-level pieces that parents/athletes cannot create at home. Photographers can provide a PNG or we will do the cut-out for you as orders are placed! Cut-outs are even returned to the photographer so additional custom products can be created!

## How Premier products work

Premier Line products require a “cut-out” image. These products can be ordered using chromakey images or, if a Premier product is ordered on a non-chromakey image, we will mask the image out automatically with our standard \$2 cut-out fee\*\* applied (this is the fee for non-chromakey cut-outs). No additional ordering/adjustment is necessary. Team images will also require a cutout if they are ordered (in the memory mate). Cutout images are also reposted so they may be used for other purposes.

\*\*This cut-out fee is a one-time charge meaning multiple products or orders using the same original image will NOT incur multiple cutout fees. Group cut-out fee is \$4.

# PREMIER BRICK

Artwork color changes based on swatch color set up in each event for these products.

Available in Wallets(8), 5x7, 8x10, 10x14 & 16x20

For teams or individuals
